## Continuous Quality Improvement in PA
### Building Cultural Competence, Welcoming all Children & Families
and Supporting Diversity (K1, K2, K3, K4, K5)

The purpose of this form is to provide information about initiatives that could support programs in addressing CQI after needs are identified though examination of relevant sources of evidence.

| **Purpose, goal and expected outcomes of the initiative. How is this activity important to program quality?** | Promote cultural competence in early childhood and school-age programs, policies and practices in Pennsylvania.  
- Create an understanding among professionals of the complexities of family structures within diverse cultures that influence child development and learning  
- Develop an awareness of diverse family systems and cultures, and an appreciation of own and other cultures  
- Use knowledge and understanding of diverse cultural, ethnic and racial context of children and families to:  
  - Create learning opportunities and environments for children that result in child positive outcomes  
  - Enhance interaction with children and families from diverse cultural backgrounds  
  - Develop and maintain respectful, reciprocal relationships that support and empower families from diverse cultural backgrounds  
- Acknowledge, value and embrace the strengths of diverse families; engage and involve all families positively and meaningfully in the development and learning of their children  
- Better able to meet the developmental and educational needs of all children from diverse cultural, ethnic and racial backgrounds |

**Audiences for direct participation in the initiative, list all that apply**

- X Directors
- X Management/Leadership Teams
- X Teachers
- X Assistant Teachers
- X All Staff
- X Parents
- X Board Members
- X Community Stakeholders
- □ Children

Is a component of the initiative that information be brought back to the program and intentionally shared with other s?

□ Yes  □ Not necessarily

Notes:

Children, especially school-age children (incorporate in learning activities)

**Research or national context to support the initiative**

Lack of awareness about cultural difference can make it difficult for childcare professionals and families to achieve the best and most appropriate care and educational experiences for young children. In spite of all our similarities, fundamental differences arise from culture, ethnicity, nationality & family background. These differences have the potential to influence expectations that both early childhood professionals and families have of each other with regards to children’s care and learning (Klump, 2005). Understanding children and families’ ethnicity and culture, multi abilities, complex identities and complex educational and developmental needs of children can have positive impact on the teaching and learning process, children’s positive outcome, school readiness and later success in school and life (Green et.al., 2007; Ray & Bowman, 2006; Decker and Decker, 2005; Henderson & Mapp, 2001; Bruns and Corso, 2001).

<th>Next Steps in PA: Develop a Cultural Competency Training Module and Workshop Series for early learning and school-age professionals and providers in Pennsylvania</th>
</tr>
</thead>
</table>
| Other clarification or information about the activity | 1. Integrate and diffuse cultural competence in all early learning and school-age programs both at the policy and service-delivery levels  
2. Gain self-awareness and understanding of role of culture in children’s learning and development  
3. Acquire cultural competence skills in working with children and families from diverse cultural, ethnic and racial backgrounds  
4. Develop strategies for effective cross-cultural communications and interactions with children and families  
5. Enhance learning opportunities and experiences for all children that result in child positive outcomes |
